

OLYMPIA SOLE

Vibram® Style #1275

Olympia

The Vibram® Olympia is a composition blocker for use on rugged outdoor footwear. The Olympia has the same functional design as the performance-proven Foura and Sierra soles.

Design

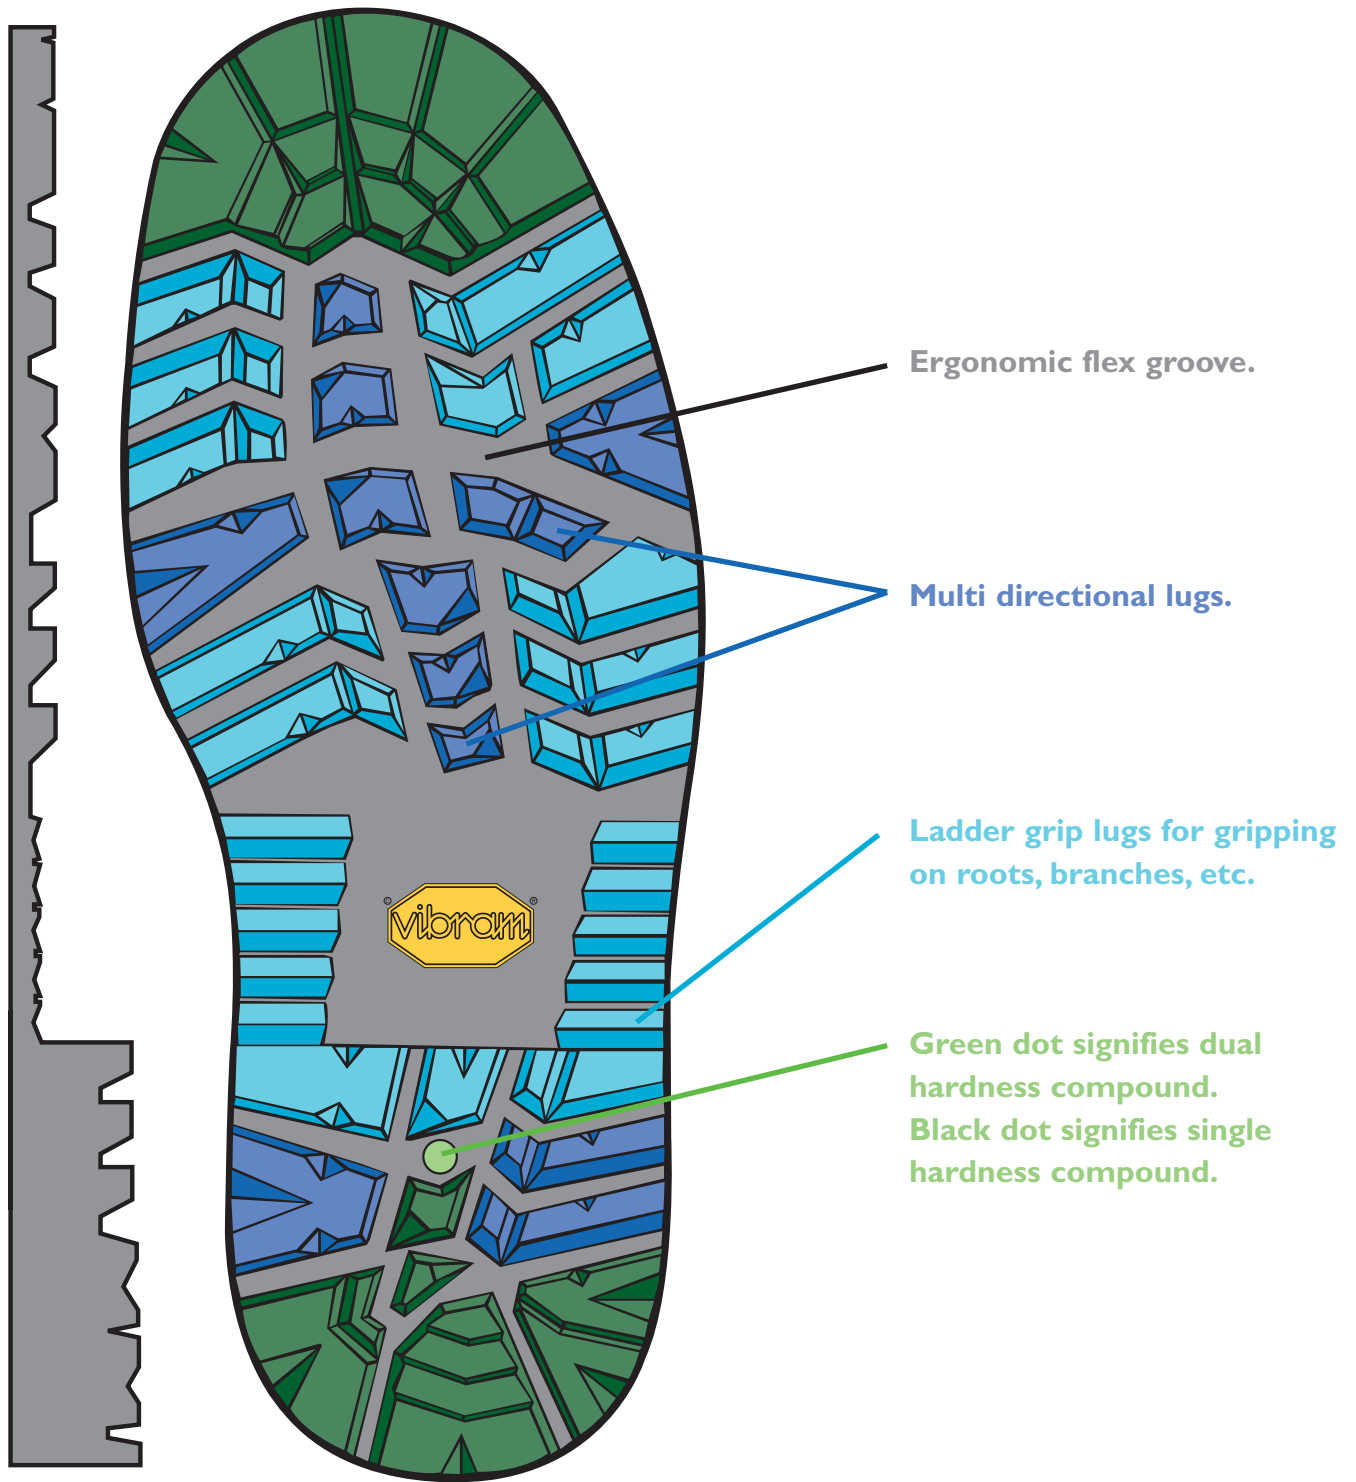

Unique design and placement of lugs provide maximum traction on various terrain. Multi directional lugs provide user with substantial edging, braking, kick off and stability. This sole has been created in a way so that we may offer it to manufacturers in a single or dual hardness compound.

Compound

The exclusive Vibram compound guarantees maximum traction on wet/dry surfaces and various terrain. This compound maintains its physical properties in extreme temperatures. All compounds are developed and chosen by considering the sole design and end use of the intended footwear.

OLYMPIA SOLE

Vibram® yellow label trademark top quality compound.
